Definition

A Customer Journey Map is a visual representation of the different stages a user goes through while interacting with a product or application. It helps to understand the user's actions, needs, and experience from the beginning to the end of the process.

ComicCraft – Customer Journey

STAGE 1 – IDEA & INPUT

The user enters a story prompt, character name, setting, tone, and preferred art style.

STAGE 2 – STORY GENERATION

The application uses Gemini AI to generate the comic outline, narration, and dialogues.

STAGE 3 – IMAGE GENERATION

ComicCraft generates images for the story panels based on the selected requirements.

STAGE 4–PREVIEW

The user views the generated story, dialogues, and images on the comic preview page.

STAGE 5 – EXPORT & DOWNLOAD

The completed comic is exported as a PDF and made available for the user to download.

Outcome

The journey begins with a simple creative idea and ends with a complete AI-generated comic that the user can preview and download.
